DID YOU KNOW?

The major league All-Star Game will return to Milwaukee in 1975 after a 20-year absence. The last time it was held here was in 1955 when the National League beat the American, 6-5, in 10 innings on Stan Musial's homer. Current plans call for County Stadium to have an expanded and modernized press box, a remodeled press room and possibly artificial turf.

DID YOU KNOW?

Of the 25 players who wore Brewers uniforms in the club's opening game—April 7, 1970—NONE is still with the team. Skip Lockwood was on the spring training roster but was with Portland, the Brewers' AAA club, at the time. Mike Ferraro, the only other player picked by the Seattle Pilots in the expansion draft of 1968 who is on the club roster this spring, had been dealt to the Orioles and was later re-acquired from their Rochester team.

DESIGNATED HITTER RULE

The American League was granted permission in January to use a "designated hitter for the pitcher" in any type of intra-league games for the next three years. Below is Pres. Joe Cronin's description of how the rule will work:

A hitter may be designated to bat for the starting pitcher and all subsequent pitchers in any game without otherwise affecting the status of the pitcher(s) in the game. A designated hitter for the pitcher must be selected prior to the game and must be included in the lineup cards presented to the umpire-in-chief.

It is not mandatory that a club designate a hitter for the pitcher, but failure to do so prior to the game precludes the use of a designated hitter for that game.

Pinch hitters for a designated hitter may be used. Any substitute hitter for a designated hitter himself becomes a designated hitter. A replaced designated hitter shall not re-enter the game in any capacity.

The designated hitter may be used defensively, continuing to bat in the same position in the batting order, but the pitcher must then bat in the place of the substituted defensive player, unless more than one substitution is made, and the manager then must designate their spots in the batting order.

A runner may be substituted for the designated hitter and the runner assumes the role of designated hitter.

A designated hitter is "locked" into the batting order. No multiple substitutions may be made that will alter the batting rotation of the designated hitter.

Once the game pitcher is switched from the mound to a defensive position this move shall terminate the designated hitter role for the remainder of the game.

Once a pinch hitter bats for any player in the batting order and then enters the game to pitch, this move shall terminate the designated hitter role for the remainder of the game.

Once the game pitcher bats for the designated hitter this move shall terminate the designated hitter role for the remainder of the game.

Once a designated hitter assumes a defensive position this move shall terminate the designated hitter role for the remainder of the game.

The designated hitter is eligible for all American League batting titles.

County Stadium is now one of the best illuminated parks in baseball. The 300 foot candle power is more than triple what it was last year. Not only were no standards added, but one to the right of the scoreboard was removed.

ITEMS OF INTEREST

FREE AGENT DRAFT RULE — A BRIEF SUMMARY: Major League and National Association clubs meet twice a year for the purpose of drafting free agent player talent . . . The winter meeting is conducted by conference phone . . . Selection of a free agent entitles the club to the exclusive right of negotiation with that player for a specified period (from date of selection until 15 days prior to next draft meeting).

Approximate dates of draft meetings: Summer (June 10) and Winter (last Saturday of January) . . .

There are two phases to each draft meeting:

(1) Regular Phase — Clubs choose in inverse order of major league standings, selecting free agents and previous draftees who had not signed contracts but had instead enrolled in four-year colleges and since had either graduated or become 21 years of age . . . Each organization may select only one player for each of its major league, AAA and AA rosters but is not limited to the number of picks for "A" level . . . Minor league clubs select in the same relative order as their parent clubs.

(2) Secondary Phase — Selection of free agents who had been drafted previously but who had not signed contracts before the negotiation right expired (except those draftees who had enrolled in a four-year college and had since graduated or become 21 years of age — now drafted in Regular Phase) . . . It is possible for a club to redraft a player whom it had been unable to sign after the original selection, but only with the express written consent of that player . . . The order of selection is by lot with the 24 major league clubs divided into two 12-team groups with the groups alternating having first selections in respective drafts.

SUSPENDED GAME RULE: A game terminated by curfew or by a pre-arranged time limit is a suspended game if it has progressed far enough to be an official game (i.e. 4½ or 5 innings) . . .

A game terminated by light failure is a suspended game anytime after it begins.

Suspended games shall be resumed at the exact point of suspension immediately preceding the next scheduled, single game between the two clubs on the same ground . . . If this is not possible, other provisions for resumption are specified in American League Regulation 3.8 . . .

A game called at the END of a completed inning AFTER NINE INNINGS for any reason shall now be considered a suspended game and will be resumed at the point of suspension.

TRADING REGULATIONS:

	In Effect:	
Waiver Requirements	From Midnight —	To Midnight —
(Within Own League)		
No Waivers Necessary	Last Day of Season	June 15
League Waivers	June 15	Last Day of Season
(Inter-League)		
No Waivers (inter-league trading period)	5 Days After End of World Series	Last Business Day of Winter Meetings in Early December
League Waivers (assignor's league)	December 10	June 15
Major League Waivers	June 15	Last Day of Season
League Waivers (assignor's league)	Last Day of Season	4 Days After End of World Series

BATTING/PITCHING (ERA) CHAMPION QUALIFICATIONS: 502 or more plate appearances. 162 or more innings.

ROOKIE QUALIFICATIONS: To qualify as a Rookie a player may not have spent more than 45 days (excluding military service) on a big league roster between cutdown dates (the first day of season and Aug. 31), AND may not have exceeded 130 official at bats or 50 innings pitched at major league level.

SAVE RULE — Credit a save to a relief pitcher who enters the game with his team in the lead if he holds the lead the remainder of the game, provided he is not credited with the victory. A relief pitcher cannot be credited with a save if he does not finish the game, unless he is removed for a pinch hitter or runner. When more than one relief pitcher qualifies for a save under the provisions of this rule, credit the save to the relief pitcher judged by the scorer to have been the most effective. Only one save can be credited in any game.

PLAYER LIMITS — 25 players from opening day through August 31 . . . 40 players from September 1 through end of season . . . Players in military service do not count against the under control list while on active duty. Upon separation from the service, a player will be reinstated to his club's normal player limits after he has completed a 15-day trial period or has participated in a championship game, whichever comes first.

DEFINITION OF NIGHT GAME — Any game scheduled to start after 6 p.m. will be considered a night game. If a game is scheduled to start at 6 p.m. and is delayed for any reason, it will be considered a day game. If a game is scheduled to start at 6:01 p.m., it will be considered a night game. Twi-night doubleheaders shall be included in doubleheader statistics and shall be considered two night games. When afternoon and night games (separate admissions) are played on the same date, the games shall be day and night and count as single games.

AMERICAN LEAGUE CURFEW RULE — All night games must be called at 1 a.m. local time. But if an inning is started prior to 1 a.m. city time, it can be completed.
